Water Tanks & Septic Tanks

A Septic Tank is a tank in which sewage is disintegrated through bacterial operation. Then Solid sewage is separated from water and it is decomposed by anaerobic bacterial operation of the sludge.

**Grand Septic Tanks** are made of Superiors quality plastics for trouble-free service for long years. No leakage, No scratches, No rust, Long life with LIFE TIME GUARANTEE. Easy to install, easy to clean, easy to transport. Cheaper than Concretes, country brick septic tanks. Can be installed in the open air and on all kinds of soils. Requires less space than concrete or brick tanks.

Septic Tanks are available in Black and Terra-cotta colours

## SEPTIC TANKS

Capacity	Diameter	Height	Length
